

JUAN CAMPOS

Senior Software Engineer | Full-Stack Developer

San José, Costa Rica • +506 7197 6210 • juancamposq@gmail.com • linkedin.com/in/juan-campos-a8082460

PROFESSIONAL PROFILE

Highly adaptable Senior Software Engineer with over 11 years of experience across corporate and freelance environments. Specialist in architecting and building scalable web and mobile applications using .NET Core (7/8), Angular, Next.js, and React Native. Experienced in integrating AI-assisted workflows, rapid prototyping, and custom AI tooling into full-stack development. Proven track record of managing the full software development lifecycle (SDLC), from initial requirements gathering through cloud deployment. Strong communicator with C1-level English fluency, dedicated to delivering high-performance code and collaborating effectively within cross-functional engineering teams.

TECHNICAL SKILLS

- **Programming Languages:** C#, TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3/SCSS
- **Front-End & Mobile Frameworks:** Next.js, React, Angular (all versions), React Native, Svelte
- **Back-End Systems:** .NET Core 7/8, ASP.NET Core, Node.js (Express, NestJS), VB.NET
- **AI & Automation:** AI-assisted Development, Prompt Engineering, AI App Building & Deployment, Generative AI Tooling
- **Databases & Storage:** SQL Server, PostgreSQL, MySQL, MongoDB
- **Tools & Methodologies:** Agile/Scrum, TDD, CI/CD Pipelines, API Design, Git, Mobile UI/UX

CERTIFICATIONS

Google AI Professional Certificate | Google / Coursera

August 2026

- Demonstrated expertise across 8 specialized courses in applying Generative AI across brainstorming, data analysis, app building, deployment, and rapid prototyping.
- Credential ID: N2BDBTW8GBZR | Verification: <https://coursera.org/verify/professional-cert/N2BDBTW8GBZR>

Introduction to Generative AI for Developers With Copilot | Microsoft / Coursera

September 2026

- Applying generative AI tooling to day-to-day development work, authorised by Microsoft and delivered through Coursera.
- Credential ID: 871KSBHS0UC7 | Verification: <https://coursera.org/verify/871KSBHS0UC7>

WORK EXPERIENCE

Senior Software Developer | NearShore Tek

Jan

2023 – Present

- Architect and maintain high-traffic web applications for international clients using modern JavaScript frameworks and .NET microservices.

- Lead the technical design and implementation of scalable architectures to significantly improve system modularity.
- Mentor junior developers and conduct rigorous code reviews to enforce strict standards of code quality, security, and performance.

Freelance Full-Stack Developer | Independent Consultant

Mar

2020 – Dec 2022

- Delivered end-to-end development for a diverse global client portfolio, focusing on custom enterprise solutions.
- **Web Development:** Engineered high-performance front-ends using Next.js and Angular while optimizing for SEO and cross-browser responsiveness.
- **Mobile Development:** Developed and successfully deployed cross-platform mobile applications via React Native for iOS and Android.
- **Back-End Systems:** Built robust, secure APIs using .NET Core 7 and 8, emphasizing clean architecture principles and high availability.

Software Developer | SicSoft

May

2015 – Mar 2020

- Collaborated actively in an Agile environment to build robust, enterprise-level desktop and web applications.
- Implemented Test-Driven Development (TDD) workflows, successfully reducing production bugs and improving system reliability.
- Modernized legacy systems by refactoring older codebases to improve performance and smoothly integrate new features.
- Designed intuitive UI/UX components to simplify complex data management structures for end-users.

EDUCATION

Bachelor of Science in Computer Engineering

Graduated 2012

Universidad Internacional San Isidro Labrador (UISIL)

LANGUAGES & PERSONAL DETAILS

- **Languages:** Spanish (Native) | English (C1 - Advanced / Professional Working Proficiency)
- **Location & Nationality:** San José, Costa Rica | Costa Rican
